

FINAL PROJECT, Stage 1

*HND in Interior Design and Architecture
The Design Ecademy*

Maria (Ria) Thompson, CADL03/6207

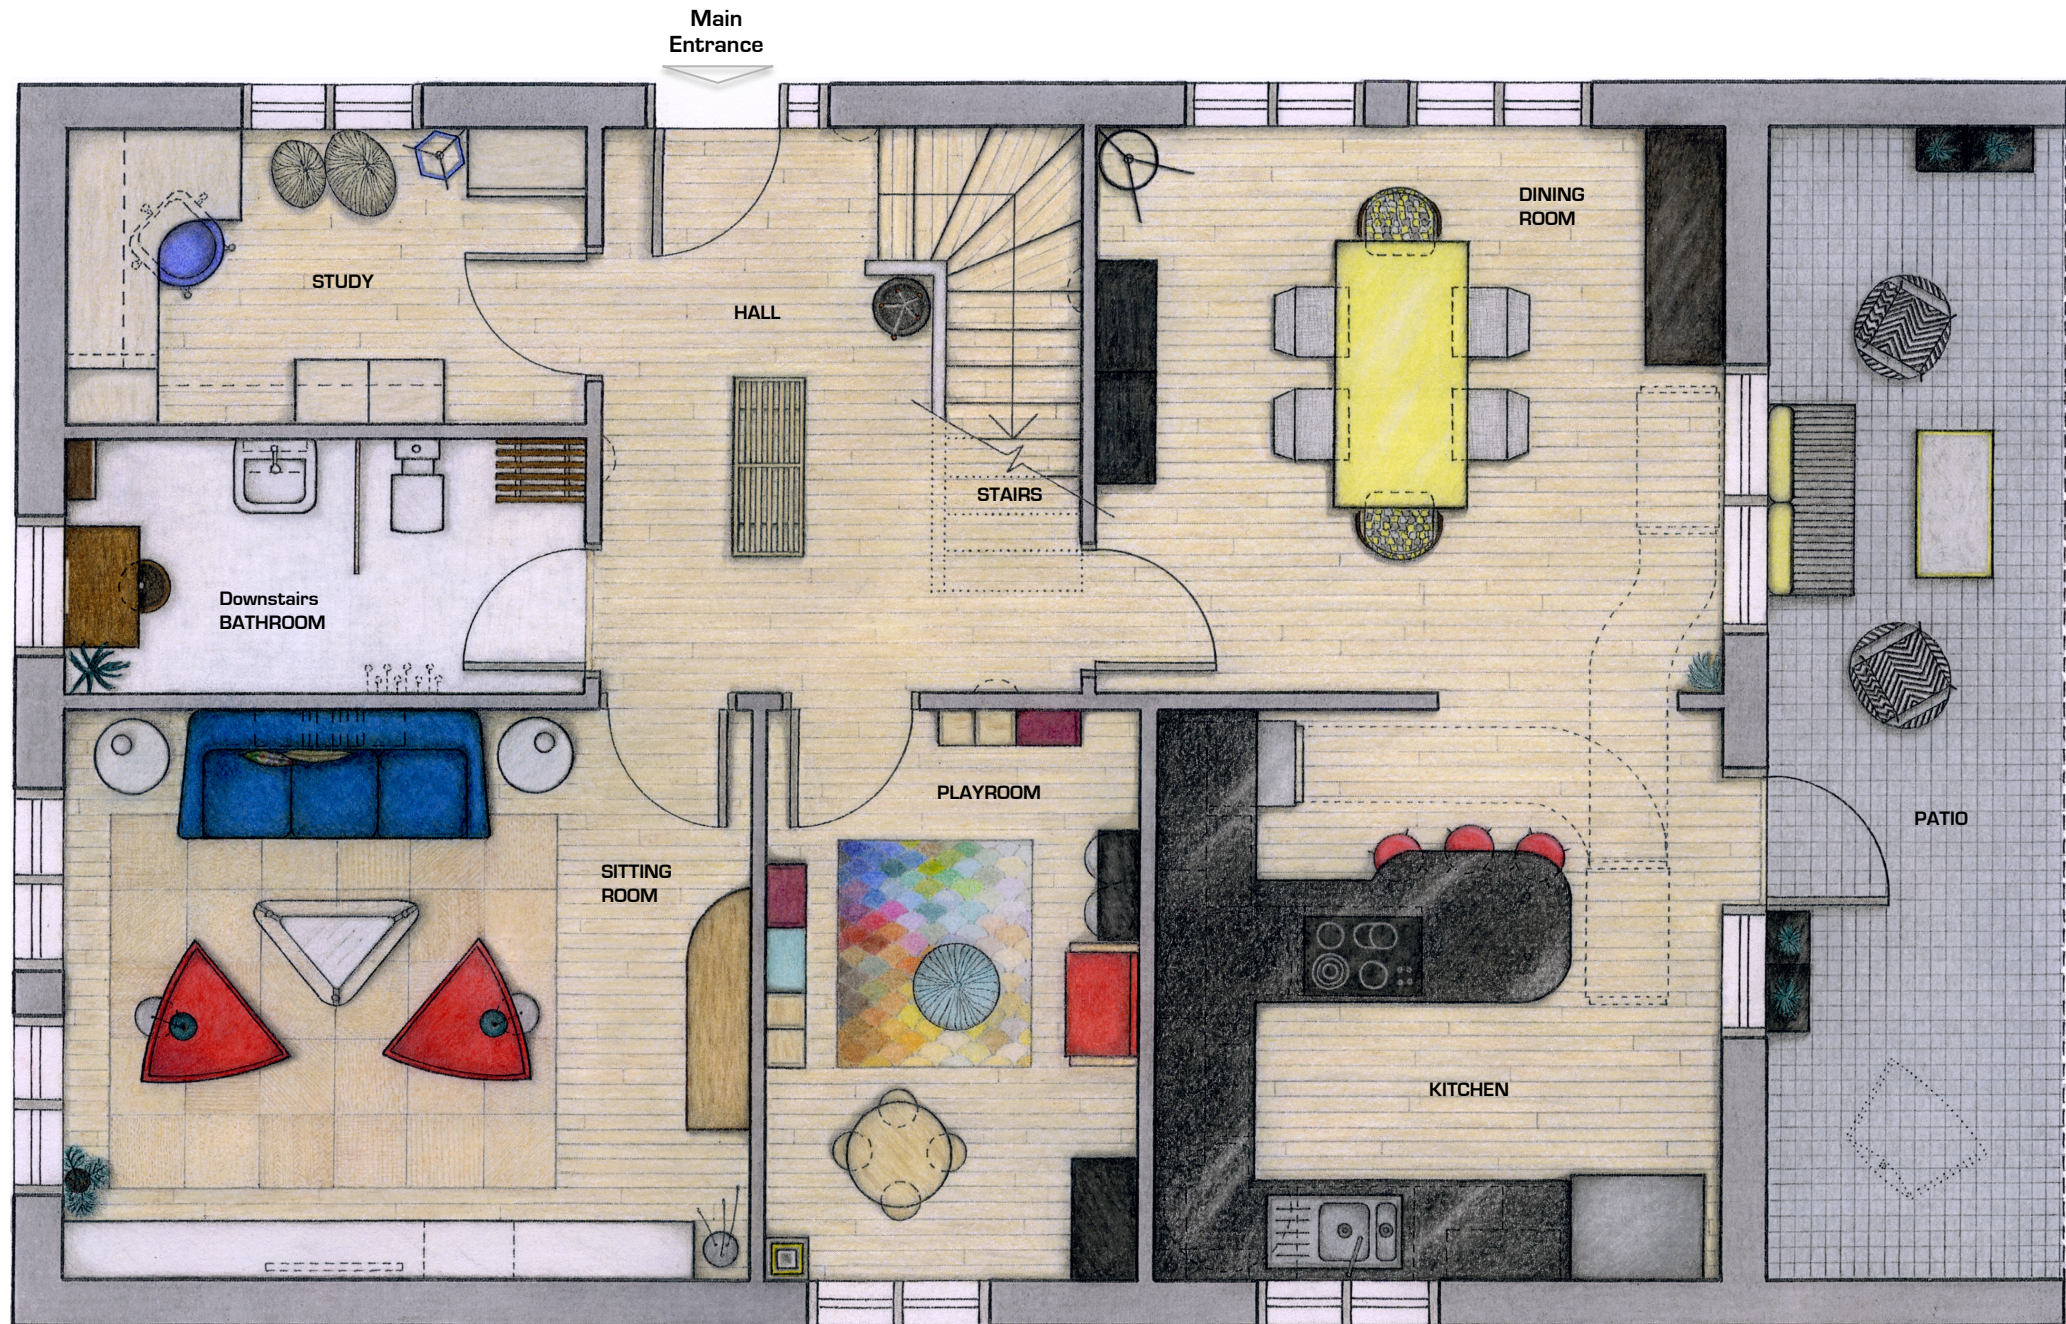

3-Bedroom Detached House Show Home

CONCEPT BOARDS

ABOUT THIS PRESENTATION

- *Organized in a room-by-room format including all rooms/areas of the two floor levels.*
- *The room order is as if a client would be walked around the house starting at the main entrance downstairs and then moving from room to room in a counterclockwise direction, ground floor first, then up to the first floor and around, finishing with the outdoor areas on each level.*
- *To assist in space visualization, a rendered floor plan view with furnishing layout is shown for each of the two house floors.*
- *One main concept board is provided for each room/area (images of lighting and soft furnishings included).*
- *A second concept board, specifically for window treatments, is provided for each one of the indoors areas.*
- *On each concept board, all products/images are numbered (in a subtle, non-distracting way) and thus each given a Reference ID (Ref ID) that is unique within their particular room/area.*
- *Per room/area, Product/Image Details tables are provided where each product is identified with its Ref ID number, name, source and cross-reference drawings and/or specifications, as applicable.*

GROUND FLOOR

Notes:

1. This drawing is shown with correct proportions, although not to its original scale. Image copied here to provide a quick reference point while viewing the concept boards for this floor level and has been adjusted in size to fit this presentation format. Please see [\[D7\] RenderedFurnishingLayout - Ground Floor.jpeg](#) for the original scaled version.
2. Drawing rendered to reflect the true colours of the furnishing elements. However, exact colour appearances may vary from monitor to monitor, and upon printing.

HALL

STAIRS

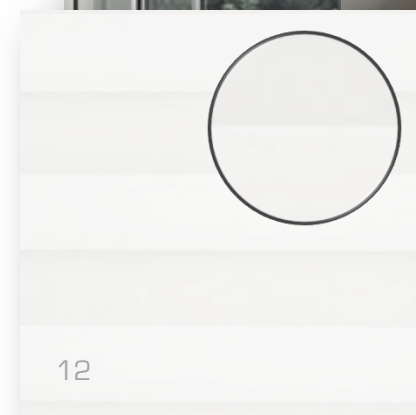

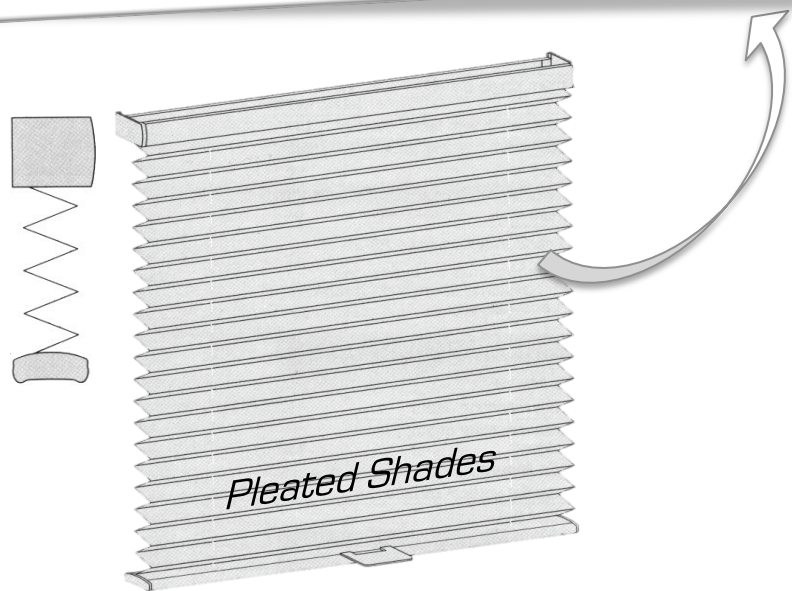

LANDING
